

Radiation dosimeters, personal, electronic, Thermo Scientific EPD[®] Mk2

NEW

For gamma, beta and X-radiation

- Advanced radiological performance
- Small and lightweight
- Ergonomic rugged design
- Multi detector technology
- Excellent response to gamma, beta and X-radiation
- Loud, configurable audible alarm
- Rapid infrared communications to reader/PC or stand alone operation
- Excellent immunity to electromagnetic interference
- Easy to read display with optional backlighting
- Advanced radiological performance, 15keV to 10MeV

The Thermo Scientific EPD[®] Mk2 is suitable for use as a single stand-alone dosimeter or as part of a comprehensive dosimetry management system using renowned hardware and software packages. The high quality and standard battery contribute to competitive lifetime costs.

The EPD[®] Mk2 combines unequalled radiological performance with advanced software and hardware features. The EasyEPD2 software package interfaces directly to the IrDA reader. The Easy Issue Software is a Flexible EPD dose collection database.
