

FACILITIES IN NORTH AMERICA CAMBRIDGE (MD) & SAN DIEGO (CA) AND IN FRANCE (BOLLÈNE)

TECHNOLOGIES

- Thermal management materials
- Precision machining
- Expert packaging capabilities

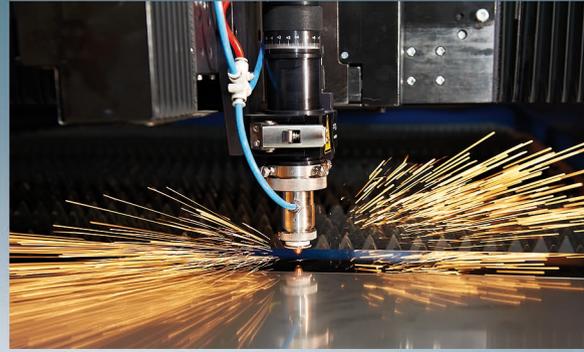

MATERIALS

- CuW CuMo
- AlGr AIC
- CPC SCMC
- AlDia TPG
- BeO

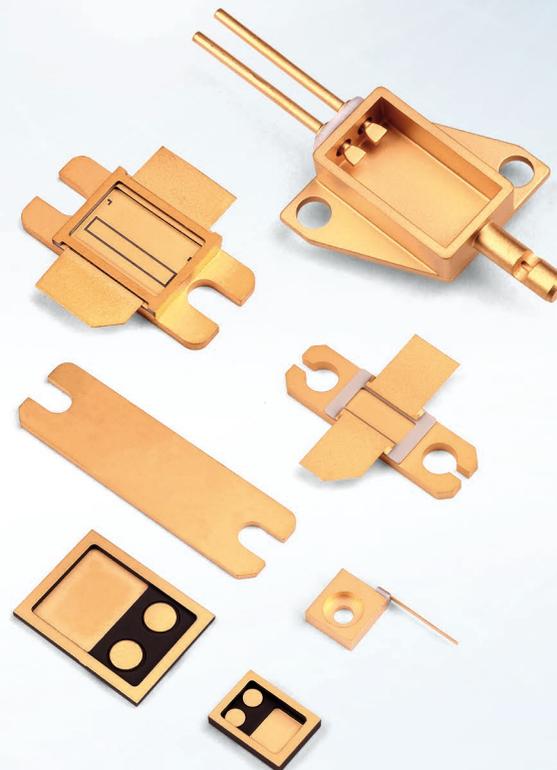

PLATING

- Full in house plating capability
- Electrolytic and Electroless
- Ni Au
- MIL - G - 45204

THERMAL MANAGEMENT

- In house fabrication of thermally conductive raw materials
- Wide variety of material sets, both isotropic and anisotropic
- In house CNC precision machining, tight tolerancing of materials and Wire EDM
- High expertise in design and manufacture custom heatsinks and packages

PACKAGES

- Hermetic and non-hermetic
- Low cost solutions
- Military and commercial applications
- Plating services
