

DELO-DIV VD600

High-precision application, coordinated turnkey solution

DELO-DIV VD600 is the larger model from DELO's new range of volume dispensers. Thanks to the endless-piston principle, it provides exceptional dispensing precision, regardless of the medium's viscosity. With a volume flow of 1.4 to 16.0 ml/min, DELO-DIV VD600 shows its strength best when larger volumes are required.

Technical data

Dimensions	ø 40 mm × 274 mm
Media viscosity	Aqueous to pasty
Volume flow	1.4 – 16.0 ml/min
Min. dispensing volume	0.015 ml
Dispensing precision	± 1 %
Material input	G 1/4" DIN/ISO 228
Material output	Luer-Lock (patented)
Repeatability	> 99 %
Weight	650 g
Product compatibility	DELO-DIV pilot 1T / 1i
