

DELOLUX pilot S4T

Base unit of the DELOLUX 50 series

The DELOLUX pilot S4T serves on the one hand as the power supply and on the other hand as a control unit for all the lamp heads in the DELOLUX 50 series. Up to 4 DELOLUX 50 lamp heads can be individually parameterized and supplied with power. It also serves as an interface to a superior unit in order to individually integrate parameters into the production process.

Technical data

Description	Base unit for controlling up to 4 lamp heads
Dimensions	235 mm × 202 mm × 152 mm
Operating temperatures	+15 °C to +45 °C
Power consumption	230 W (depending on the number and type of lamp heads)
Settings	Power setting: 5 % bis 100 % (increments 0.2 %) Irradiation time: 0.1 s to ∞ s
Position for operation	Table device Installation in 19" rack optional
User interface	7" touch screen
Weight	3.6 kg
Product compatibility	DELOLUX 50 series DELOLUX 502 DELOLUX 503 DELOLUX 504
